Resist Gloria Arroyo's new fascist dictatorship

**Central Committee
Communist Party of the Philippines**

The Communist Party of the Philippines condemns in the strongest possible terms Gloria Arroyo's "State of National Emergency". The CPP further calls on the Filipino people to resist and struggle ever more vigorously to overthrow Arroyo's new fascist dictatorship.

Gloria Arroyo has long been using state violence against those protesting its antinational, anti-democratic and antipeople policies and acts as well as its illegitimacy, compounded lies and abject rottenness. She has bared her fascist fangs.

Martial law has long been in the making under the Arroyo regime. It has carried out a litany of fascist policies and acts including the "no permit, no rally" policy, "calibrated preemptive response," Executive Order 464, systematic killings of activists and leaders of the anti-Arroyo protest movement, massive military operations and abuses targetting civilians in many parts of the country, surveillance on leaders of the opposition and democratic mass movement and the like.

It has long desired to officially declare some form of martial law. It has made a number of attempts in the last several months to impose

a fascist dictatorship. Widespread vehement protests, however, frustrated its attempt in October 2005 to take advantage of the increasing crisis brought about by rising oil prices to officially declare a "State of National Emergency" through draft Executive Order 467.

Like Marcos who issued Presidential Proclamation 1081 declaring martial law, Arroyo has issued her own Presidential Proclamation 1017 to further her repressive and fascist acts, including plans to arrest leaders and activists of democratic and progressive organizations and parties, and government, military and police officers and personnel critical of the Arroyo regime. In issuing Proclamation 1017, Arroyo has arrogated martial law powers. It is extremely ironic that exactly 20 years after the Marcos fascist dictatorship was overthrown, a new fascist dictatorship has been established by Gloria Macapagal-Arroyo.

Like Marcos, Arroyo has resorted to concocting outright lies about a purported "tactical alliance by the Left and Right (referring this time to a supposed alliance by the CPP-NPA and rebel forces within the AFP-PNP)... engaged in a concerted and systematic conspiracy to bring down

the duly constituted government," a supposed rebellion codenamed "Oplan Hackle" by "misguided elements" within the AFP-PNP, all aided and abetted "by certain elements of the national media" and the like.

To justify Proclamation 1017, Malacañang claimed that military and police units including their elite forces were to declare their withdrawal of support and join a scheduled protest march and rally. The commanding general of the 1st Scout Ranger Regiment, and several commanders of the Philippine Marines, PNP Special Forces and other provincial AFP-PNP units were arrested or removed from their positions and placed under tight watch.

The immediate trigger and target of Proclamation 1017 were the massive protest marches and rallies scheduled on the eve of the 20th anniversary of the EDSA people power uprising cum military rebellion against the Marcos dictatorship. Invoking Proclamation 1017, Malacañang revoked rally permits, ordered police forces to violently disperse rallyists marching towards EDSA and arrest its leaders and restricted demonstrations in Ayala Avenue and different areas around Metro Manila. Proclamation

1017 seeks to terrorize the people and dissuade them from joining demonstrations for fear these would culminate in a mass uprising.

Proclamation 1017 also seeks to break the broad anti-Arroyo united front through sheer brute force. It has already led to the arrest of the Arroyo regime's most vocal critics. Anakpawis Congressman Crispin Beltran was arrested yesterday by police agents supposedly on the basis of a 1985 arrest warrant. Military and police operatives also tried but failed to arrest Representatives Satur Ocampo and Teodoro Casiño of Bayan Muna and Representative Lisa Maza of Gabriela Women's Party. Another outspoken critic of Arroyo, former constabulary chief Ramon Montaño, was likewise arrested together with former police general Rex Piad. Former senator and Reform the Armed Forces leader Col. Gringo Honasan and several other former military and police officers were also issued arrest warrants. At least 100 have already been arrested since Friday. There is a list of at least 200 military, police and civilian "destabilizers" that the Arroyo regime plans to arrest.

Proclamation 1017 imposes prior restraint and threatens a clampdown on the mass media. In the early morning of February 25, the editorial office and printing house of the oppositionist *Daily Tribune* was raided without a warrant by police operatives supposedly looking for some documents and materials. The Philippine National Police has already declared that it would take control of the *Daily Tribune*. Meeting media representatives, the National Telecommunications Commission has likewise issued a thinly veiled threat,

declaring that the state could take over broadcast companies that fail to comply with new stringent policies on media reporting set by the Arroyo regime. To ensure compliance, the police has also announced the formation of a group to monitor the media.

All these moves to curtail civil liberties, suppress people's protests and crush the movement to oust the Arroyo regime are bound to fail. On the very day Arroyo issued Proclamation 1017, tens of thousands of people defied the "no rally" policy and held mass demonstrations at Ayala Avenue in Makati. Gloria Arroyo's Proclamation 1017 intensifies the Filipino people's clamor for the overthrow of her dictatorship.

As the Marcos dictatorship failed to stop protest rallies and its eventual overthrow, so will the Arroyo dictatorship fail to stop surging nationwide protests and mass resistance. Arroyo has only succeeded in steeling the people's determination to further build up mass protests towards another people power uprising. She has only furthered unrest within the military and police forces and broadened the ranks of those determined to withdraw their support to the Arroyo regime. The Filipino people will not be coerced into submission. They are determined to continue resisting the Arroyo regime's fascist acts. They demand the end of the Arroyo regime and its replacement by a government that truly advances national freedom and democracy.

The illegitimate, puppet, corrupt, rotten and now barefacedly fascist Arroyo regime is intensely abhorred by the Filipino masses as well as by a majority of the officers and men of its own armed forces

and police. In establishing itself as a dictatorship, the Arroyo regime has further isolated itself.

The Party calls on all revolutionary forces to do their utmost to resist and help bring down the new fascist dictatorship. Even as the New People's Army (NPA) will continue to abide by the policy of not intervening in the mass protest demonstrations in Metro Manila and other urban areas, its units should launch tactical offensives that can be won against diehard pro-Arroyo and fascist units of the reactionary armed forces and, whenever the opportunity presents itself, coordinate with the anti-Arroyo and other friendly units within the AFP and PNP.

The Party and the revolutionary movement call on the democratic forces and the broad masses of the people to heighten the antifascist aspect of the struggle against the Arroyo regime. The CPP urges the military and police to defy fascist orders from their generals to suppress the people's civil liberties. Anti-Arroyo forces and other positive elements within the government's military and police who are prepared to withdraw support from the Arroyo regime are likewise asked to join and support democratic forces who persist in building the requisites for a new people power uprising.

The struggle of the revolutionary forces, anti-Arroyo elements within the military and police and the entire Filipino people against the tottering but obstinate Arroyo regime has further heightened with the emergence of barefaced fascism. The revolutionary forces and the Filipino people are ever determined and united in the struggle to bring down Gloria Arroyo's fascist dictatorship.

Proclamation 1017 is a tyrannical act of desperation, incites the people to intensify Oust Arroyo Movement

Jose Ma. Sison
Senior Political Consultant
National Democratic Front Negotiating Panel

Gloria M. Arroyo has issued Proclamation 1017 to combine a declaration of a state of emergency and invocation of commander-in-chief authority to call the troops to suppress rebellion. By this proclamation, she claims to have the power to prohibit peaceful assemblies, revoke rally permits issued ministerially by local mayors, order warrantless arrests, suspend the privilege of the writ of habeas corpus, and so on.

The real malevolent objective of Arroyo in issuing the proclamation is to suppress the people's assemblies in the nationwide anniversary celebration of the events of 22-25 February 1986 that resulted in the overthrow of Marcos. She is terribly afraid that the people's mass actions critical of her rotten and hated regime would encourage her own military and police forces to withdraw support from her.

Indeed, she has undertaken so-called preemptive actions by ordering the arrest of military and police officers suspected of opposing her regime and revoking rally permits nationwide and ordering the violent dispersal of people in peaceful assembly. The proclamation and its immediate consequences demonstrate that Arroyo is tyrannizing the people and even her own military and police officers whom she suspects of siding with the people.

Proclamation 1017 is a tyrannical act of desperation by an utter-

ly isolated usurper of authority and her small coterie. It proves that Arroyo will go to any length, including the bloody suppression of the people and her opponents. It is the prelude to worse tyrannical acts to come if the people and the broad united front of patriotic, progressive and all other anti-Arroyo forces do not act promptly to stop her.

To oust the Arroyo regime, it suffices for the legal patriotic, progressive and other anti-Arroyo forces and their allies among the active and retired military and police forces to do their best in mustering their own respective following and in drawing the broad masses of the people to gigantic mass actions in the vicinity of the presidential palace and key points in the national capital region and in the provinces. The people hate the Arroyo regime for its puppetry to foreign interests, electoral fraud, corruption, brutality and mendacity.

According to reports received by the Negotiating Panel of the National Democratic Front (NDFP), the New People's Army (NPA) led by the Communist Party of the Philippines (CPP) is determined to continue intensifying the revolutionary armed struggle by concentrating its fire on military, police and paramilitary units that are deemed loyal to the Arroyo regime because they do not demonstrate that they

are anti-Arroyo by raising a red flag or the Philippine flag with red side up and allowing the troops to wear the red arm bands.

According to the same information, the CPP, NPA and NDFP are desirous of a revolutionary transition council (predominantly patriotic and progressive) to replace the Arroyo regime on a program of upholding national sovereignty and independence, realizing genuine land reform and national industrialization, promoting a patriotic, democratic and scientific culture, carrying out an independent foreign policy for peace and development, and opting for truce and alliance with the revolutionary forces against foreign and local oppressors and exploiters.

The information reveals that among the opposition parties, the legal forces of the national democratic movement and the ranks of retired and active anti-Arroyo military and police officers in the broad united front, there is a growing common desire to form a transition council that can negotiate a just and lasting peace with the NDFP by addressing the roots of the civil war. Otherwise, the US-dominated ruling system of big compradors, landlords and corrupt government officials cannot be overhauled in favor of a new Philippines that is truly independent, democratic, socially just, progressive and peaceful.
